# How Can You Help?

The Food Larder community service program provides food for individuals and families in need of assistance in Central Bucks county. The Food Larder is a designated food distribution site of the Bucks County Opportunity Council and receives government allocated funds for specific food items on an annual budget basis. While these funds provide the foundations for this program, additional funds and donated foods are also provided from area churches, synagogues, organizations, businesses and individuals.

The Food Larder serves the clients of the Bucks County Opportunity Council and individuals referred from churches and organizations.

Individuals or families in need may receive assistance from the Food Larder without referral by contacting any of the telephone numbers listed or by coming to the Food Larder during normal days and times of operation.

The Food Larder is entirely operated and staffed by volunteers. 100% of all food, supply, and monetary donations directly benefit those who need the help of the Food Larder.

## *Volunteer!*

Volunteers are always needed at the Food Larder! Can you spare a few hours each week to help staff the Food Larder on Mondays or Wednesdays from 9:00 am—Noon or 1:00—4:00 pm? Please contact Rose Konyk at (215) 348-5770.

## *Donate!*

Food and monetary donations are always greatly needed and appreciated. In addition, items such as paper goods and personal care items are needed. Clients also benefit greatly from \$10 gift cards to local grocery stores. Please see our *Items Needed* list for more information.

*The Food Larder depends on the help of the community and you to continue this valuable service for those in need.*
